<p>*** Notes of Significance *** Fires highlighted in yellow have submitted a final ICS-209</p>																	

## Evening Brief

Date: Thursday August 10, 2017

---

### Weather Summary

Moisture will remain in place across the northern portion of the area through Friday, leading to scattered showers and thunderstorms across the northern half of the Great Basin. Lightning will be mostly on the wetter side, on top of fuels that have received some moisture.

However, at the same time drier air will continue to move into the area from the southwest, across much of western and southern Nevada. The drying trend will continue from southwest to northeast into this weekend, pushing into Utah and southern Idaho. However, another disturbance could pull some moisture into our far northwestern areas of Central Idaho, towards the Boise and Payette National Forests late Friday into Saturday, where fuels are the driest across the region. This could trigger a mix of wet and some dry lightning, in areas where fuels are critically dry.

---

### Preparedness Levels

Great Basin	3 as of midnight tonight
National	5

---

### Great Basin Fire Activity (from Irwin): Light Activity

**New Fires and Acres: 12 fires for 872.8 acres; 483 acres large fire growth; 1 new large fire**

---

### Resources:

- Crews: 14 T1 IHCs in GB: 11 committed, 1 R&R, 2 Available.
  - GBCC has committed an estimated 84+ Type 3, 4, 6 engines.
  - 3-T1 and 5-T2 helicopters are available in GACC.
- 

### Great Basin Fire Potential Summary

Very high fire danger indices for the time of year are being observed over the mountains of western and central Idaho. Values are much lower across the south and east.

The southern portion of the Great Basin will get a break from the monsoon, with drier conditions than have been seen in almost a month.

We have issued a Great Basin **Fuels and Fire Behavior Advisory for Nevada, Idaho and Utah**, available at the following link:

[https://www.predictiveservices.nifc.gov/fuels\\_fire-danger/GB\\_Fuels\\_and\\_Fire\\_Behavior\\_Advisory.pdf](https://www.predictiveservices.nifc.gov/fuels_fire-danger/GB_Fuels_and_Fire_Behavior_Advisory.pdf)
